

A Step-by-step Guide to MyBenefits Registration

Getting started with MyBenefits is quick and straightforward. In just three easy steps, you'll provide key information about you, confirm your identity, and create your account.

Step 1 of 3: Create an Account

The screenshot shows the 'Step 1 of 3: Personal information' form. On the left, a sidebar lists the required information: date of birth, state and ZIP code, and contact information. The main form area has a title 'Create an account.' and a sub-header 'Fill out your personal information.' Below this is a list of fields: First Name, Last Name, Date of Birth (MM/DD/YYYY), Social Security Number (with a 'Why we ask for your SSN' link), Zip Code, State of Residence (dropdown), Phone Type (dropdown), Phone Number, and Email. A 'NEXT' button is at the bottom, and a link for existing users is at the bottom right.

Enter your name, Social Security Number, date of birth, and address. Your **personal** email address will be used as your login username going forward.

NOTE: You will only be asked for your SSN one-time and will provide the highest success for connecting you with your policies. Select **Next** to continue.

Step 2 of 3 — Verify Your Identity

The first screenshot shows 'Step 2 of 3: Identity Verification'. It states that a text message with a code has been sent to the user's phone number, (***).***-0654. It includes a 'Send a new code' link and a 'Verification Code' input field. The second screenshot shows the next step, where the user is asked how they would like to receive the verification code. It offers two options: 'Send text message to phone ending in 0654' and 'Send voice call to phone ending in 0654'. Both options are selected with radio buttons. There are 'Back' and 'Next' buttons at the bottom.

MetLife will verify your identity to help keep your information secure. Select how you'd like to receive a one-time verification code, text message or voice call, that will be sent to the phone number shown on screen.

Once you receive the code, enter it and select Next. Verification codes expire after 15 minutes, but you can easily request a new one if needed.

A Step-by-step Guide to MyBenefits Registration

Step 3 of 3: Create a Password

The screenshot shows the MetLife website's password creation step. At the top left is the MetLife logo, and at the top right is a 'Login' link with a user icon. The main heading is 'Step 3 of 3: Password' followed by 'Create a strong password'. Below this, it states 'Your login email is tugcesagiroglu@hotmail.com'. A note says 'All fields are required unless noted'. Instructions read: 'Use a mix of uppercase and lowercase letters, numbers, and symbols.' There are two input fields: 'New Password' and 'Confirm Password', both with masked characters and a strength indicator icon. Below the fields, there is a link to 'Terms of Use' and 'eDelivery policy'. Two checkboxes follow: 'I have read and agree to the Terms of use.' and 'I agree to the eDelivery policy to go paperless.' At the bottom are 'Cancel' and 'Create account' buttons.

Once we have confirmed your identity, you will need to create your password. Your email address will be your login ID (It is highly recommended to use a personal email address), and you'll create a strong password using a mix of letters, numbers, and symbols. Review and accept the Terms of Use and eDelivery policy to opt into paperless communications. When finished, select **Create Account**.

You're all set!

The screenshot shows the MetLife website's account creation confirmation page. At the top left is the MetLife logo, and at the top right is a 'Login' link with a user icon. A large green checkmark icon is centered at the top. Below it is the heading 'You've created an account' followed by 'Log in to access your benefits.' A paragraph states: 'You can also explore other features of your MetLife account, including tracking your claims, managing your coverage, and more.' At the bottom is a 'Log In' button.

Once your account is created, you'll see a confirmation message. You can log in via **the blue button**.
