- In certain states, the Accident Prevention Screening Benefit is provided by MetLife Consumer Services as a separate service and is not part of the insurance coverage. This does not impact the Accident Prevention Screening Benefit's availability, cost, or the way in which the service is accessed. The covered health screenings are: Routine health check-up exam (annual physical exam), blood chemistry panel, complete blood count (CBC), chest x-rays, electrocardiogram (EKG) and electroencephalogram (EEG).
- Lodging Benefit - The lodging must be at least 50 miles from the insured's primary residence.
- **Health Screening Benefit/Accident Prevention Screening Benefit** – The Health Screening Benefit may not be available in all states. In some states, the list of eligible screening/prevention measures may be limited, and the benefit may be referred to as the Accident Prevention Screening Benefit.
- **Organized Sports Activity Injury Benefit Rider** – The rider is not available in all states. Proof of registration in an Organized Sports Activity in which an Accident occurred is required at time of claim. See your certificate for details.

### Benefit Payment Example

Kathy's daughter, Molly, was riding her bike to school. On her way there she fell to the ground, was knocked unconscious, and was taken to the local emergency room (ER) by ambulance for treatment. The ER doctor diagnosed a concussion and a broken tooth. He ordered a CT scan to check for facial fractures too, since Molly's face was very swollen. Molly was released to her primary care physician for follow-up treatment, and her dentist repaired her broken tooth with a crown. Depending on her health insurance, Kathy's out-of-pocket costs could run into hundreds of dollars to cover expenses like insurance co-payments and deductibles. MetLife Group Accident Insurance payments can be used to help cover these unexpected costs.

Covered Event <sup>3</sup>	Benefit Amount
Ambulance (ground)	\$500
