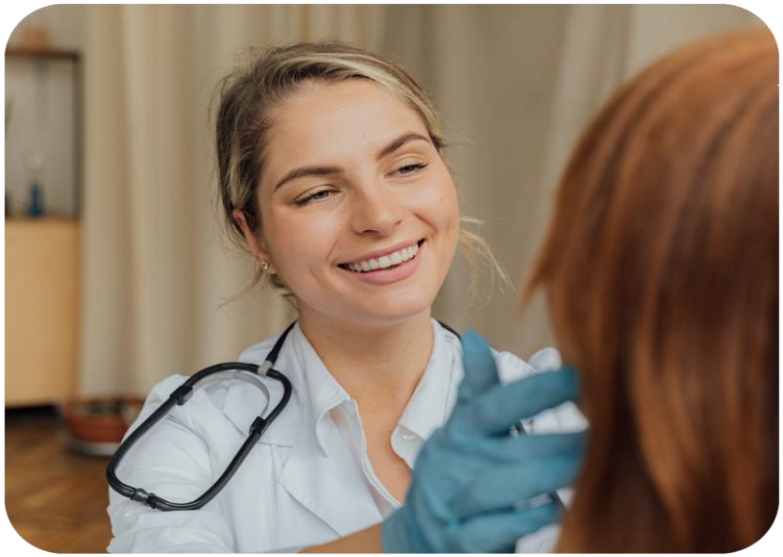
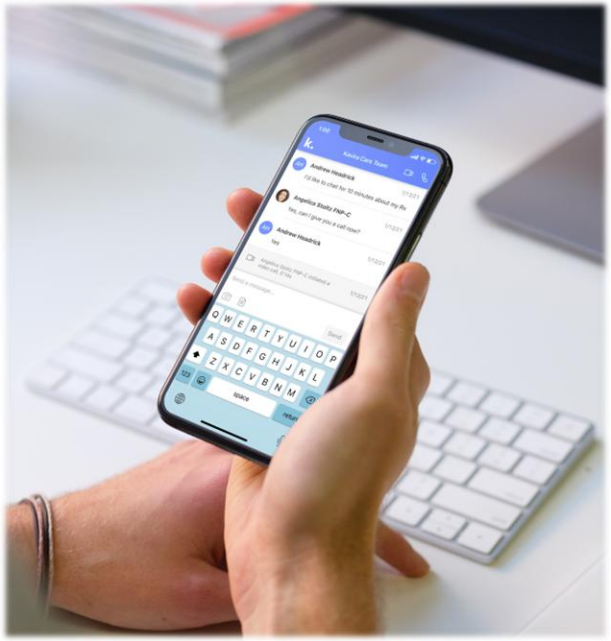
Welcome – to Convenient Everyday Health Care!

Brought to you by the BIHP-RRV health insurance plan, Kavira offers a better healthcare experience for you and your family. Our experienced team of clinicians provide same-day primary and urgent care via home visits and telehealth. No more trips to the doctor - all care is provided through house visits and via our mobile app.

There are no copays, insurance hassles, or surprise bills. Members can do everything online or in our app, including messaging, scheduling house visits, requesting prescription refills, and videochatting with Kavira providers. A Kavira provider will work with you to assess your symptoms and answer any questions you may have.

Kavira is the next generation of care convenience.





Benefit Highlights:

- **100% Free for Employees** – All care for you and your family has already been paid for by the BIHP-RRV
- **Unlimited on-demand** – Our responsive providers are here for you, and there is no limit to the number of visits you or your family may have
- **Complete Convenience** – Prescriptions delivered to your home
- **No paperwork** – Forget filling out and mailing forms – it's all done through the app
